

DATE: 27.10.2016

Tender: Ref. No. ICS/11-12/013/DSTX/TSUN – (“FABRICATION OF DROP CAPSULES FOR MICROGRAVITY FACILITY” - New Specification)

Amendment no. 1 for IITM WEBSITE ADVERTISEMENT

1. The weight limit of the capsules has been changed and the modified weight is as follows.
 - a. Outer Capsule – The weight of the outer capsule shall not exceed 150 kg.
 - b. Inner Capsule – The weight of the inner capsule remains the same as 100 kg.
2. Dummy load can be added to the bottom portion of the outer capsule to maintain centre of gravity at a lower position, but the total weight is not to exceed 150 kg.
3. The bottom plate of the inner capsule, part number – 204 will be of thickness 20 mm (revised thickness).
4. The revised thickness of aluminium plates for experiment platforms is 4 mm.
5. The tender due date is extended till 9th November 2016 as per the request of vendors participated in the pre-bid meeting.

The bidders shall take into account the changes made, while submitting the tender. All other specifications, terms and conditions of the original tender document shall remain unchanged.
