Scope of Work:

Supply, Installation, Testing and Commissioning of AV System for Auditorium

Removal of the existing AV setup

Scaffolding should be taken care by the contractor

Contractor has to ensure no damage is caused to the existing structure or its surroundings. In case of any damage caused, the contractor has to undertake all repairs and restore it to the original condition

Contractor should co-ordinate his work with any other work that may happen like electrical or other interior work

After completion of work, an AV testing post installation will be done and any corrections suggested needs to be executed by the contractor without extra charges

Since this is time bound work the delivery of all items should be on site before 5Aug19

Terms & Conditions:

The vendor should submit MAF certificate for the supply of Bose items

Warranty 5 yrs for overall AV System

Payment - 100% after delivery for equipment and 100% for installation and handover
