

MAIN COMPONENTS

The major equipment comprise of the following:

Si. No.	Main Component/Equipment	Unit	Quantity
1.	Data Acquisition System with accessories	No.	1
2.	20 Channel Multiplexer	No.	3

TECHNICAL SPECIFICATIONS FOR Data Acquisition System with 20 Channel Multiplexer and accessories

Feature	Required features
Application	To record the data
Type of data logger	Data Logger Switch Unit
Integration with Computer	**Suitable computer live integrator adaptor with accessories.
Multiplexer	20 Channel (2/4-wire) Module
Ambient temperature	0 to 40°C
Power supply	Single Phase (220 V)
Integration software	User friendly Graphical User Interface (GUI) based software to control, data transfer and analysis.
Warranty	Minimum one year warranty period from the date of installation.
Eligibility Criteria	a.Should have Supplied to any IIT in India & details to be provided. b. Reputed Make

** - Bidder has to specify in their offer

Note: All the technical parameters are indicative value, Bidder will be designing and specifying in their offer.
