

## Annexure B

Supplier needs to complete attached checklist and attach it along with the **technical bid**. Attach additional sheets if required to support your answers to below questions

### Aerofoil components

Sl. No	Questionnaire	Response from Supplier
1	Provide the details in support of your experience in manufacturing and supplying high precision aerofoil components to aerospace industries	
2	Are you presently supplying high strength steel and titanium aerofoil components to aerospace industries	
3	What raw material form do you plan to use for turbine rotor?	
4	Have you identified a qualified Titanium raw material supplier for Material as per AMS4928? Provide the details of supplier	
5	How are you planning to qualify the material to ensure it meets drawing specifications	
6	Do you have qualified heat treatment supplier identified for Solution Heat treatment and Aging for Titanium?	
7	What inspection process you are planning to inspect the aerofoil geometries?	
8	Can you meet profile tolerances and surface finish on aerofoils as per drawing requirement?
