

Corrigendum No.3

Dated: 14.05.2020

National Technology Centre for Ports Waterways and Coast (NTCPWC)

Department of Ocean Engineering, IIT Madras

Name of work: “Geotechnical Investigations alongside the existing South Coal Berth at Cochin Port Trust, Cochin, Kerala.”

S. No.	Item Description	Reference		Existing clause	Amended clause
		Page	Clause		
1	Scope of the work	Page 13 of 34	3.2.1 (Note)	Note: The Geotechnical investigation shall be carried out in marine environment by mobilizing suitable boring equipment, personnel and all other necessary machinery including floating platform/pontoon, hydraulic rigs, transportation, shifting of equipment from location to location for boreholes, etc., carrying out the borehole investigation alongside the South Coal Berth at Cochin Port Trust. The mobilized system shall be capable of handling men, equipment and machinery for drilling and it shall have sufficient space for drilling operation. The working platform shall provide a stationary work place such that the boring operation is smooth.	The existing Note to be corrected and read as “ Note: The Geotechnical investigation shall be carried out in marine environment by mobilizing suitable boring equipment, personnel and all other necessary machinery including hydraulic rigs, transportation, shifting of equipment from location to location for boreholes, etc., carrying out the borehole investigation alongside the South Coal Berth at Cochin Port Trust. The successful bidder shall be allowed to provide suitable arrangements from the existing SCB and conduct the Geotechnical investigation at their cost, close to the vicinity of the face of the berth. Neither the pontoon nor the floating platform is contemplated under the scope of the present investigation. The arrangements made from the deck structure

					shall be capable of handling men, equipment and machinery for drilling and it shall have sufficient space for drilling operation without causing any damage to the existing berth structure. The working platform shall provide a stationary work place such that the boring operation is smooth.”

The clause amended through this corrigendum supersedes the similar provisions available elsewhere in the tender, wherever they are in variance.

All other conditions in Tender No. OED/2020/GTI/NTCPWC/SASA/001 remains unchanged.
