Tender No. IITM/SPS/Website Redesign/002/2019-20
E-Tender ID: 2019_IIT-M_444361_1

CORRIGENDUM

In the tender document,

a) In Page No. 9, Annexure A, Technical Specification – Point no. 2.4 (a) may be read as

Number of Pages: 66 Total (66 indexable)
Instead of
Number of Pages: 66 Total (66 indexable) without Post

b) In Page No. 4, “Vendor Eligibility Criteria” & in page no. 14, “Pre-Qualification Bid (Annexure-B)” – Point No. 4 may be read as

At least one of the projects executed must involve the design and deployment of a web portal using Drupal, Joomla, or Wordpress. Description of such design project of a webportal containing the content architecture and the visual layout of the portal should be submitted (A link to the specific web-portals along with a mention of the CMS used in that Webportal should also be submitted as proof)
Instead of
At least one of the projects executed must involve the design and deployment of a web portal using a content management system like Drupal, Joomla, or Wordpress. Description of such design project of a webportal containing the content architecture and the visual layout of the portal should be submitted (A link to the specific web-portals along with a mention of the CMS used in that Webportal should also be submitted as proof)

c) In Page No. 12, Annexure A, Technical Specification – Point No. 3.1 (I) may be read as

A Technical Support plan that covers routine and event-based support for a period of one year after handover. The expected support is as follows:

- a. End-user support for the portal
- b. CMS support for reconfiguring necessary features for a better user experience
- c. Web administration support for issues regarding portal configuration due to content migration
- d. In the event of an unreliability or failure of any sort in any component of the web portal that has been delivered, the vendor should provide a team that will work round the clock with IITM in eliminating the unreliability or failure.

Instead of

A Technical Support plan that covers routine and event-based support for a period of one year after handover

d) In Page No. 12, Annexure A, Technical Specification – Point No. 3.2 (i) may be read as

Install and configure CMS modules for Social Media Sharing.

Instead of

Install and configure CMS modules for Social Sharing **integration and maintain existing Social Media presence**

All other conditions are remains the same.
