

Tender No: CIE/USAR/030/2019

Name of the item: Data acquisition system, sensors, installation and commissioning to perform continuous remote monitoring of Pamban Bridge

Minutes of the pre-Bid meeting held on 30-8-2019 for the above subject is appended below

S. No	Tender Page No	Clause	Vendor Query	IIT Madras Clarification
1	2	IV Prices	Can the price be FOR	The price should be quoted either on CIP or Free on Road (F.O.R) as the case may be
2	2	V Agency commission	Not applicable for certain bidders	It can be stated that this clause is not applicable in the response to bid
3	3	Schedule 2 EMD	EMD not applicable for startup company	The registration document for startup company to be submitted together with a copy of the EMD exemption notification
4	3	Schedule 4 Indian agent	Is there an exemption to this clause	If it is not applicable to a consortium, it may be stated so
5	3	Schedule 5 customer details	Can the list of customers abroad alone be provided	List of customers in India or abroad can be provided
6	4	Schedule 11 Payment	Modification of payment terms	Payment terms in the tender specification is retained
7	7	Requirements of the consortium	Relaxation on references and period of existence	The committee decided not to change the tender specification
8	7	Scope of Work	Specification of SIM card	4G SIM with minimum 3G connectivity
9	8	General terms and conditions	Exemption to OEM / sole authorized agent/dealer/seller of proprietary item	The committee decided not to change the terms and conditions.
10	10	Table 1: Electrical type linear strain gauge	Can gauge length be greater than 3 mm?	Gauge length must be in the range 3 to 5 mm
			Can vibrating wire gauges be used?	No. Not possible at the site
11	10	Table 1: Accelerometer	Are piezoelectric type accelerometers only required?	Yes. No change from the tender specification.
12	13	Table 3: 48 Channel bridge amplifier and signal conditioner – Resistance type	There is no TEDS support for strain gauges	TEDS support is not required for strain gauges. Only acceleration channels require TEDS support
13	15	Table 3: Surge Protector	Is separate surge protector required?	If the data acquisition system has a built-in surge protector satisfying the specifications, separate surge protector is not required.
14	16	Uninterrupted power supply (UPS)	What is the input to charge UPS?	Tamil Nadu Electricity board 230 V power supply
