Date: 11/11/13

Due date: 02/12/13.

Quotation required for a Gantry support moving trolley for New Shallow Water Basin.

Work: Design and fabrication of a longitudinally moving gantry girder (spanning 15.2m c/c) with a transverse movable girder with a load carrying capacity of 100kg. A skeleton sketch of the girder is given in

Specifications

1. The girder should not vibrate during testing and the deflection should be limited to 2mm.
2. Both the longitudinal and transverse girders should be independently controlled by motors with a location accuracy of 2mm.
3. All system controls must be preferably in PLC.
4. It is the responsibility of the supplier to check the design for the functional and structural requirement. You may visit the laboratory to ascertain the requirements.
5. An independent control system should be supplied such that the users should enter only the coordinates (location) of the girder.

The technical bid will be opened at 3pm on 5 Dec. 2013. The vendor should submit evidence of their capability to install such similar system elsewhere during the last 5 years and also, should submit a list (with evidence) of at least 5 projects undertaken by them for the tender value.

Payment terms: 100% payment on supply and commissioning the system.
