Features	Issue	Status
Main page	Change the explorer page - easier search	Fixed
Main page	Add categories of exam date and start date - searchable	Fixed
My Profile	Can we show something as Current courses and old ones as "Closed courses"	
Offline assessment	Currently we are not using this feature	Pending
Questions	Neagtive Numeric range as an answer type (from: and to:)	Fixed
Assignment response display	Once assignment is closed, can we have a green tick mark for correct answers and a "X" for wrong answers, along with displaying the answer selected, as learners are finding it hard to understand the marks they get?	Fixed
Subjective Assignments	For subjective assignment: Ask for the total marks the assignment is graded against (Last time people had configured assignment out of 40,60 and entered marks in the portal according to this. But when we took the marks from the score sheet from the portal, we were not aware of this scoring and assumed they were all out of 100 and calculated final scores accordingly and had them published too!!! after which we had to rework and revert.) So this field may alert us to the scoring if it will be displayed in the sheet or you can convert it to /100 when the marks are entered in the portal.	Fixed
Exam Registration	Be able to interface with NPTEL exam registration form - should give the basic details of candidate - courses enrolled, scholarship,college name	
Registration	For Local chapter colleges, department and college roll number should be mandatory	Fixed
Registration	Industry local chapter will be added for Jan run - same as LC spoc - allow viewing of Enrolled learners and access to their scores	Fixed

Registration	Addition of local chapter outside india	Pending
Course intro page content	If we have data in some csv/excel format, can we do a direct upload to populate the Intro page content?	Pending
Import feature	Import only the intro page content and video content - for example, we probably dont want to import the assignment questions	Pending
Gradebook	Latest respons is not updated	Pending
Assignments	Add a button for deselecting the attempted question. Because, once i mark any option, i can only shuffle between options. I cannot unselect the choice, if answered unknowingly. Especially important when negative marking is enabled.	Pending
Assignments	Matrix type answers for entry	Pending
Assignments	Peer review - feedback comments are not visible; can we get grading also done? Also from course admin id we are unable to see the comments	Pending
Images and files	Capability to upload a folder of images	Pending
Programming Assignments	There is a problem that most of the students are facing while doing programming in course builder. The problem goes like this: we are giving some programs that are of "fill in the blank" type. Student need to fill the blank with appropriate answer and thn will compile and run. the problem is, once we will fill up the blank, and compile, Next moment if we would like to see the original version of the program, we could n't get that.	Pending
Programming Assignments	NetworkX Package	Fixed

Subjective Assignments	Can we have bulk upload of subjective assignment marks? Another request where if the list of email ids and marks are there, if we can upload it, would be very useful than entering it one by one. Assignment id too would be required in this case. This feature we can probably use when some faculty request us to add marks to a particular assignment for all students. Either we can have the feature where you can allow us to add marks to an assignment along with re-evaluating or this upload may solve the problem for us.	Fixed
Super Admin	Can we get enrollment numbers for different courses displayed on Super admin page as a column?	Pending
Super Admin	Can we have a means of opening/closing registration across selected courses from one page?	Fixed
Lessons and assignments	Auto release of lessons and assignments	Fixed
Assignments	Download the assignments in pdf format	Pending
Dump	There are mismatch in the count of profile and assignment dump	Pending
Assignment	Whitelisting a particular assignment	Pending
Course staff	Have the "Course staff" tab at an assignment level so that different TAs can be allocated to different assignments if drive type assignments are concurrently open.	Pending
Images and files	After deleting a file, it wont allow to upload the file with same name	Pending
Images and files	On the dashboard of every course, in the assets section we are seeing a lot of pre-loaded images	Pending
Subjective Assignments	During evaluation, it should not show the submissions of students once after they withdraw from the course	Pending
Analytics	Mentor-wise data dump	Fixed
Force students to enroll	showing error	Fixed

Super Admin	Posting the same announcement - on selected courses - at one go	Pending
Super Admin	Apart from announcements, is there anyway we can send an email to all the students (unique users) who are enrolled with us on the portal?	Pending
Mailing list update	Withdrawn students getting announcements	Pending
Accessing the course content	A candidate's id is available on the profile sheet and assignment score sheet but he is unable to see the Course outline content. The course is even there in his "Progress" tab. If he has withdrawn, we would assume his id would get removed from the profile and assignment score sheets. We have been handling it by enrolling the back to them course.	Fixed
Assignments	Check alignment of latex images with the radio/select button when used in assignments	
Assignments	Automatically generate solutions	Fixed
Assignments - subjective	If a student uploads a document for correction, is there any way of adding comments to it and sharing this document with the user?	
Images and files	Size of document that can be uploaded	Pending
Mentor Login	mentor can view the student progress currently. If there is a download option it will be easy for them.	
Subjective assignment	Issue in the display of Progress tab	Fixed
Withdraw	students by mistake withdrawn from the course and requesting to add them back	Fixed
Unenrolled Students	on visiting the announcemnt section as a unenrolled user , I can able to see the title in the outline section	
Matlab	Finish and Deploy Matlab LTI module	Pending

SPOC login	1. We will need all details of the candidate to be displayed and available for download such as Name, roll number, department name (once it is implemented), Role, etc along with the email id being seen.	Fixed
SPOC login	2. The course ids being seen may not be useful to spocs - can we have this replaced with course names?	Fixed
SPOC login	(is a quick summary of numbers also possible just as a table: course, number enrolled for them to get an idea?)	Fixed
SPOC login	3. Scholarship approval can be kept at the "Local chapter students" level also - need not be inside the course as we provide fee waivers to candidates if they are enrolled to any course.	Fixed
SPOC login	4. Selecting mentors can be kept at course level and not global level - also can we ensure this is done only if they have chosen role as "Faculty" i.e. the checkbox is available only if they have declared themselves to be faculty?	Fixed
SPOC login	5. Download of details at global level and at course level	Fixed
SPOC login	6. In our profile sheet download, we want the Mentors to be marked and also the scholarship applied candidates.	Fixed
SPOC login	Other courses not visible to spoc	Fixed
SPOC login	Local chapter students as single list	Fixed
Locking of Assignments	Lock the Asssignments once it is live	Fixed
Other features	Fix credits situation, add credits to cover remainder of 2017	Fixed
	Convert Watch Time to micro service	In Progress
	Review backup jobs usage and set new timings	Fixed
	Convert Profile Dump to micro service	Pending
	4-week courses close	Fixed
	8-week courses close	Fixed
	12-week courses close	Pending

	Stop backup jobs for 4-week courses	Fixed
	Stop backup jobs for 8-week courses	Fixed
	Stop backup jobs for all courses	Pending
	Kick-off meeting for Jan 2018 run	Pending
	Add a lock for SPoC roles. (and preferably for all shared objects in the future).	not started
	Do not show Manual Review objects of invalid students (eg: unenrolled)	paused
	Clean up Archive Data	Paused
	Work on the Explorer Page (home page)	Need review
	Global SPOC	Need review
	Fix backup cron job to run only for current courses	Fixed
	Profile dump - fix scholarship & mentor fields showing up as blank	Fixed
	SPOC dump - remove closed courses	Fixed
	Registration not working for some students	Fixed
	Slow Dashboard	Fixed
	Attaching list of mentees with mentors	Fixed
	Negative range in Short answers not accepted	Fixed
	NPTEL unable to obtain profile dump	Fixed
	Test the SPOC Feature	Fixed
	Add Colleges in the Registration field from the attachment on email (NPAT)	Fixed
	Dashboard to keep track of Units/ Downloadable Report	paused
	Ask a question feature not working currently - to be looked into	Fixed
	Profile dump issues - force users to Edit profile - will be done when NPTEL says ok	Fixed

	Assignment bugs: Score Dropdown for grading assignments + Make due date filling mandatory	Fixed
	Numeric Question error for special characters (Allow only e and numerics)	Fixed
	Turn off randomised options, Make multiple submit on and Partial marks ticket by default (editable)	Fixed
