Item to be procured: Software, necessary licenses and installation / configuration / commissioning for virtual desktop infrastructure (VDI) for 100 concurrent users.

Who can quote: Only Partners authorized with a VMware Academic Specialization and who are Academic Solution Partners of Microsoft.

The VDI being procured is with the following description:

1. The VDI is from VMWare® to enable Microsoft® Windows® virtual desktop sessions for 100 concurrent users.

2. The users are expected to login to their virtual desktop session using an existing ADS.

3. The OS and the desktop sessions are to be configured such that the users are able to work with different web browsers (specific versions that are compatible with a third party web based workflow software used by IIT Madras will be made available on request), Microsoft Office Professional and any other desktop software compatible with the Microsoft Windows OS.

4. An automatically mapped drive for storage of user files for each logged-in user shall be configured.

5. Line items as required from VMWare® and Microsoft® are listed below. Vendors can add any other item required for the solution to be complete for smooth running for a period of 3 years. Any charges from the vendor for installation / configuration / commissioning can be included along with the below mentioned line items.

6. Support on the complete solution for 3 years is to be included as part of the bid.

7. Necessary virtual machines and storage will be made available on an existing VMWare® setup for creating this VDI.
