Technical Specification
System Hardware
Intel® Xeon® quad-core processor (4C/2.5G/10M) upgradable to Dual Processor
16 GB memory ECC Reg Expandable Upto 1TB (16 DIMM Slots)
Linux based OS on Flash memory module,
Unlimited User license 3U rack-mountable Redundant Power supply

Host Interface
6 x Gigabit Ethernet with load-balancing, (Supports up to 12 Gigabit Ethernet with teaming)
Optional: 10G, FC & Infiniband (In the same box)

RAID Subsystem
SAS controller 12 Gbps with support for Hardware RAID 0, 1, 10, 5 & 6
1GB battery backed cache
Supports up to 16 hot-swap SAS/SATA HDDs Bays (Up to 240 HDD's using JBODs)

Both File & Block Storage functionality
Supports NFS, CIFS/SMB & FTP
Supports iSCSI target,
Supports SRP target/ FC Target (Optional extra, using Infiniband/ FC HBA)
