

Technical Specification:

6	1	Fluid Flow Sensors	<p>A. Microfluidic flow meter</p> <ul style="list-style-type: none">a. Flow meter of the range of 0-7 microliters/minb. Accuracy of 5%c. Repeatability of 0.5% <p>B. Microfluidic pressure sensor</p> <ul style="list-style-type: none">a. Pressure range of 0 to 10 barb. Operating temperature of 15 – 45 °C <p>C. Compatible reader and other accessories as needed for fluid flow meter and pressure sensor</p> <p>D. This equipment should have been supplied to 2 IIT's , IISER or 2 NIT's or any other government research laboratories.. User certificate should be produced.</p> <ul style="list-style-type: none">1. One-year warranty is required on site.2. Please provide quotation for additional warranty.
